

August 2021 Update

Today is August 16th, and our team is exhausted!!! As you know, baby Nicolas arrived last month, and he is doing amazing. He has been home for a while but has needed to continue his oxygen which should be ending soon as he continues to get stronger every day. Next, just when we couldn't think that God could bless us anymore, meet Michaela! This absolutely beautiful baby girl is only a couple of days old, but mom and baby are home, healthy and safe. As I said last month, we planned and held a training and had a very good turnout. It's awesome to see what God is doing in Utah! In other news, V4TV received a very generous donation last month and that along with some added support helped us make ends meet which led to purchase of a minivan for a mother of 4 who is expecting her 5th gift from God as well as help provide housing for another mom we are working with on a daily basis. In fact, our team was able to attend an ultrasound today for the second mom and she is 6 weeks pregnant which means God willing we will meet her baby on or before April 6th, 2022. Well that's the good news, the bad news is things have really heated up on the sidewalks. Planned Parenthood has closed their parking lot and with that comes twice the interactions and twice the abuse. However, God is sovereign, and our message is as unchanging as He is, Abortion is murder...We can help you... and that no sin, including the sin of abortion is greater than the cross of Jesus Christ. Please pray for us in the upcoming month, "the harvest is plentiful, but the laborers are few." I know I speak for everyone at V4TV when I say thank you for laboring with us where God has called you to do so.
